# Common Sense

**About City Directory Circulation** 

THE TRUE VALUE of advertising circulation is circulation consulted.

- TO BE EXACT—by actual survey in Canadian cities—for each City Directory, an average of three and one-half consultations were made for each business day.
- TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.
- FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

 $1000 \times 3\frac{1}{2} \times 305 =$  1,067,500

Consultations or Circulation Consulted

# Features and Departments of a City Directory

Your new, Improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

#### YOUR CITY DIRECTORY CONTAINS:

An Alphabetical list of names and addresses of every resident, business concern and institution, plus wife's name, and if a widow the deceased husband's name, and the occupations of all employed persons. Principal officers or owners and a description of businesses are included as well.

A Householder's Directory, comprising a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and other occupants

A Classified Business Directory—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital, cemetery, and a complete list of business blocks and residential apartments.

A Miscellaneous Section with historical and statistical information of your city; plus other miscellaneous information.

# Typical Questions

## Your City Directory Will Answer

Here are some typical questions your City Directory will answer, indicating both the types of information available and the sections in which the answers may be readily located:

ABOUT AN INDIVIDUAL  (Department of Directory where answer may be found)	(Department of Directory where answer may be found)		
How does he spell his name? Alpha.	What is the character of the neighborhood? St. Guide		
Where does he live?	What is the nearest street corner?		
Does he own his own home St. Guide	If business location, what business?		
What does he do for a living? Alpha.  Where does he work?	If an office building, who are in what rooms? St. Guide		
What is his wife's name? Alpha.  Is he the "head of the house"	Where are the public and office buildings?		
or a resident?	ABOUT A CLUB, SOCIETY OR ASSOCIATION What is the complete name? Classified		
Is the woman single, married or a widow?	Where are their headquarters? Classified Who is the Secretary?		
ABOUT A BUSINESS CONCERN	What are the Churches and where located? Alpha & Class		
What is the correct name and address? AlphaClass.	Who are the pastors? Alpha & Class		
Is it a Partnership or Corporation? Alpha.  Who are the partners, owners or officers? Alpha.  Who else in same or similar	ABOUT CITY, PROVINCIAL OR DOMINION DEPARTMENTS What are the latest population figures?		
lines?	What is the latest Statistical and General Civic information?		
ABOUT A LOCALITY	What are the names and locations of the Schools? Alpha & Class		
Who lives at a given address? St. Guide  Is there a telephone at the address or nearby?	What are the locations of the Hospitals, Homes and Asylums?		

# HUNDREDS OF USES AND APPLICATIONS

#### BUYING

Learning new sources of supply.

Keeping up with known sources of supply.

Checking on the record of firms from which you buy as to dependability, stability, etc.

SELLING (Including market analysis

and sales promotion)

Locating new markets.

Maintaining up-to-date mailing lists.

Analyzing the buying power of a community or street.

Routing salesmen to avoid lost motion in reaching prospects.

Locating residents of hotels and apartment buildings, many of whom are listed nowhere else.

Identifying names and titles of officials, for use of salesmen.

#### CREDIT REFERENCE (and Collections)

Running down delinquent debtors.

Checking credit applications as to address, moving habits, names of employers, stability of employment, family status, neighbors, whether householder, roomer or home owner.

Identifying persons of same or similar names. Investigating cases in welfare, charitable, social service and legal work.

#### DELIVERY, COMMUNICATION, MAILING, Etc.

Routing deliveries.

Reducing dead letters and insuring more complete delivery of mail.

Effecting delivery of messages and parcels erroneously or defectively addressed.

Correcting names and titles.

#### LAW ENFORCEMENT, CRIMINAL DETECTION and APPREHENSION

Tripping bad-check passers.

Deciphering illegible signatures.

Guarding against habitual bill dodgers.

Tracing heirs and witnesses, settling estates, and establishing facts as of a certain date.

#### Introductory

The present volume for 1954 is the 47th edition of Henderson's Directory of Saskatoon. The work embodies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all parts and includes all essential features which have proven so satisfactory to our patrons in previous issues; these have been retained and amplified and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service. work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

#### THE DEPARTMENT OF MISCELLANEOUS INFORMATION

THE DEPARTMENT OF MISCELLANEOUS INFORMATION starting on page 5 contains information about Civic History and Industry, as well as a complete list of Apartment and Business Blocks.

#### THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE starting on page 21 features the names of all streets and avenues arranged alphabetically and numerically, giving the location, number on the street, and showing the occupant.

The intersecting streets are shown in the order that they come. 

△ Denotes that there is a Telephone in the house.

→ Denotes that someone living in the house is the owner.

#### THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations starts on page 111.

#### THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY at the back of the book exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

#### SASKATOON POPULATION, in excess of 57,000

The Directory estimate of population is based on the actual number of individual's names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Saskatoon Directory covers considerable territory beyond, but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Saskatoon may be obtained.

#### ADVERTISING SASKATOON

An important function of the Directory is to set forth the characteristics and An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

> Respectfully, The Publishers, HENDERSON DIRECTORIES LIMITED.

September, 1954.

#### PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

> HENDERSON DIRECTORIES LIMITED, PUBLISHERS.

#### City of Opportunity

Saskatoon, founded in 1882 on the lordly banks of the swiftly flowing South Saskatchewan River, offers today opportunities as great, if not greater, than those of any city on the western plains.

The city, which was known in the early years of the century as the "Miracle City of the West" because of its tremendous growth from a hamlet to a thriving community of 30,000 population in little more than a decade, is again on the march. Developments already underway mark the city for further growth greater even than that which first brought it into prominence. The population of Saskatoon today is estimated in excess of 57,000.

21st Street looking East

Photo by Hillyard & Hume

All indexes of prosperity point upwards. Bank debits and clearings, earnings of municipally owned utilities, post office revenues, building permits, wholesale and retail sales, and the value of manufactured products all show continuous and spectacular growth, and, at the time this is written, have generally established new highs in the city's history.

The city is centrally located on the prairies; it is in the heart of one of the world's greatest grain growing areas; it is the site of the University of Saskatchewan with its unexcelled College of Agriculture.

The University of Saskatchewan is expanding very rapidly. In the last few years, the following new buildings have been added: a Soils and Dairy building, costing \$500,000; a residential building for agricultural students, costing \$700,000; a gymnasium, built at a cost of \$300,000; a laboratory, costing \$150,000; and a Medical College building, costing \$750,000. The Medical College building marks the beginning of the establishment of a College of Medicine in the province of Saskatchewan. A seven million dollar Medical College hospital is in the course

of construction on the University campus as a part of the Medical school. When the college begins to function, it will accommodate 240 students and graduate annually 60 students into the ranks of the medical profession. The University now has an enrollment of over 4,000 students.

One of the fine University Buildings

Photo by Hillyard & Hume

In 1948, the National Research Council opened the Prairie Regional Laboratory in Saskatoon. The laboratory, built on the University grounds, is a four-storey structure, housing the very latest scientific equipment. Although the main purpose of the laboratory is to do research work in the field of agriculture, and particularly in the use to be made of agricultural waste products, its facilities are nevertheless being employed in all phases of scientific research. Saskatoon was chosen as the site of the Laboratory because of its central location on the Prairies.

Saskatoon's educational institutions offer complete training from kindergarten to university. This fact appeals strongly to parents. A child may begin in public school, proceed to high school and thence to the university from which he may graduate in Arts or in several professional courses—all without leaving Saskatoon.

Not only is the city in the centre of tremendous agricultural resources, but it is also next door to some of the most important oil, natural gas, salt and potash discoveries made anywhere in Canada in the last few years. The concentration of these as yet undeveloped resources in the Saskatoon area, undoubtedly, will contribute greatly to the future growth of the city.

At the time this is written, an intensive search for oil is being made. Practically all of the mineral rights to land in the area tributory to Saskatoon have been leased by large oil companies intent on discovering oil. Tests already made and geophysical surveys carried out lead experts to believe that oil will be discovered in large quantities in the central part of Saskatchewan. Should this prediction turn out to be true, Saskatoon's future as an important urban centre on the Prairies is ensured.

As the "hub" of a large and rich trading area, and as the geographical centre of the inhabited portion of the prairies, the city commands a position unrivalled by any other western city. Its trading area takes in half of the population of Saskatchewan.

#### Industrial Development

As might be expected, Saskatoon's industries, like most of those of Western Canada, are closely identified with farming operations. Of the city's 144 manufacturing plants many are engaged in such manufacturing processes as the milling of flour, feeds and cereals; meat packing; dairying, including butter and cheese making; egg powdering; chick hatching; oil seed extraction and canning.

In addition there are iron works, foundries, machine shops, printing establishments, bakeries, breweries, furriers, bottling works, oil refineries, carriage works, planing and woodworking mills, stone works, lithographers, engravers, and manufacturers of road machinery, furniture, paper boxes, vinegar, clothing, stokers, chemicals, tents and bedding, brushes, candy, crests and pennants, and concrete products.

The Saskatchewan Wheat Pool has in operation a flour mill with a daily capacity of over 1,000 barrels as a part of its industrial development program in Saskatoon. The company had already in operation in the city a vegetable oil plant, a refinery and a mixed feed plant. The total invested to date by the company in building manufacturing plants in the city runs well over four million dollars. Saskatoon was chosen as the site of the Pool's industrial program in Saskatchewan only after much research work and investigation as to the most suitable location. The Hi-way Refinery has just completed a million dollar extension to its Saskatoon plant.

The city owns its own water works and distributes the city's requirements in electrical energy. Unlimited supplies of water are available from the South Saskatchewan River, which winds its way through the city, and ample electrical energy is provided by a plant equipped with the most efficient and modern generating machinery. Water and electricity rates are very reasonable.

There are more than 1,700 business places of all kinds in the city, including, in addition to the 144 manufacturing establishments, 150 wholesale and over 500 retail stores. Some very choice industrial sites, owned by the city, can be purchased at low rates. A recent industrial development opened up for future industrial expansion some 100 acres of city-owned centrally located property. This piece of land, zoned for industry and already served with railway spur facilities, offers excellent opportunities to new industries.

The present program of expansion at the university, together with the large industrial activity already underway in the city, points to an increase of 25% to 50% in the city's population in the next five to ten years. This additional population will require not only many extensions to present services, but also many new servicing establishments. Business concerns, therefore, interested in the value and possibilities of a locality as a business location should not overlook Saskatoon when planning new outlets for their products.

#### Distribution

Saskatoon's distributing area, due to the city's central location on the prairies, is very extensive. It is more than 70,000 square miles in size and takes in some of the most productive grain growing land in Canada. It includes two large cities and a dozen or more large-size towns. It comprises generally the northern half of the province of Saskatchewan and takes in close to half of the province's population.

An examining of freight rate costs shows Saskatoon's decided advantage over other distributing centres in serving the northern half of the province of Saskatchewan and the eastern portion of the province of Alberta. Goods coming into the city in carload lots are distributed in less than carload lots to points in all directions from the city in successful competition with all other large distributing centres on the prairies.

As a redistributing centre for the whole province Saskatoon has the edge. It is exactly in the centre of the inhabited portion of the province. Fifteen railway lines feeding into every section of the northern part of the province converge on Saskatoon and district as a centre, and several of these lines link up with other lines from other urban centres, to give Saskatoon ready access to all parts of the province. As the population trend in Saskatchewan is definitely northwards, Saskatoon's advantage as a redistributing centre for the whole province is becoming more and more pronounced.

Because of its central position on the prairies, and its excellent airport facilities, Saskatoon may well become a distributing centre by air for the three prairie provinces. The city is within three hours by air from almost all parts of the prairies.

The city has close to it the bulk of the province's resources of minerals, timber, oil and gas. These industries in the coming years will require much servicing.

#### Transportation

Saskatoon is particularly well served by Canada's two great railway systems. The city is on the main transcontinental line of the Canadian National Railways and four trains daily connect Saskatoon with the main transcontinental line of the Canadian Pacific Railway. In addition, there is a veritable network of lines on both systems radiating from Saskatoon to all parts of the city's trading area.

The city is on the main line of Trans-Canada Airlines connecting New York via Montreal, Toronto, Winnipeg, Saskatoon and Edmonton with Vancouver and Alaska. The Saskatoon airport is one of the largest in Canada. The runways are more than one mile in length and are designed to carry the largest planes now used or in prospect.

The Canadian Pacific Airlines operate flights daily to and from the city to other centres in Saskatchewan.

The Saskatchewan Transportation Co. serves the city with daily buses to and from all important towns and cities on the prairies, and provides through transportation linking up with all of the main bus lines on the North American continent.

Broadway Bridge over the Saskatchewan River

Photo by Hillyard & Hume

Because of the excellent transportation facilities and the ease with which Saskatoon may be reached, the city is the locale annually of many hundreds of meetings of regional, national and international organizations. Saskatoon is the only city on the prairies which can be reached from all other main centres in an overnight run.

Saskatoon's own transportation system is owned by the city. Every section of the city is well served. The city is presently converting its transportation equipment from street cars to trolley buses. New industries are provided with adequate transportation facilities as soon as possible after they have been located. A survey recently made shows that all residential districts of the city are within three blocks of transportation facilities.

#### The City Beautiful

Visitors rarely fail to remark upon Saskatoon's lovely appearance and beautiful surroundings and frequently refer to it as the "Garden City of the West." Beautifully and picturesquely situated in the bend of the South Saskatchewan River, the city has made the most of its location. Six bridges, two of them noted for the beauty of their architecture, traverse the swiftly flowing river and provide interesting geometrical designs as their forms become mirrored in the water below.

A dam, which raises the level of the part of the river flowing through the main portion of the city, slows the current and greatly enhances the river's appearance. Many scenic parks abound along the river's banks.

C.N.R. Bessborough Hotel

Photo by Hillyard & Hume

Standing like a baronial castle on the river's edge and displaying its massive but graceful form is The Bessborough Hotel, famed in Canada for its superb accommodation and service. The Bessborough hotel grounds, with their sunken garden and colorful array of shrubs and flowers, are unrivalled anywhere in Canada.

The buildings of the University of Saskatchewan constructed from native stone and possessing distinctive architecture, crown the height of land northeast of the city. The university buildings and the beautiful Memorial Gates at the entrance to the grounds—the latter built in remembrance of the students who died in the first great war—never fails to arouse the admiration of tourists and visitors.

Saskatoon is known for its beautiful schools and educational institutions. In addition to the University of Saskatchewan, the city is the site of the Provincial Normal School, the School for the Deaf, and the Provincial Vocational Training

School. There are four collegiates and fifteen elementary schools. Saskatoon is thus the educational centre of the province, and because of this caters annually to about 5,000 students from centres outside of the city.

Coronation Park

Photo by Hillyard & Hume

Lovely homes and gardens, beautiful churches and buildings, wide streets, bordered with a variety of trees, well-kept parks and a general cleanliness which gives the city always a spick and span appearance, all go to make Saskatoon a truly beautiful city.

#### **Sporting Activities**

Saskatchewan is a sportsman's paradise. It offers the finest upland and migratory bird shooting of any area in Canada. Moose, deer, caribou, elk and antelope abound and may be hunted in season. The number of hunters from outside the province who have come to realize that Saskatchewan's northern regions form a natural homeland for big game is large and is annually increasing. Many of these hunters make Saskatoon their headquarters during the hunting season.

Prince Albert National Park, 160 miles north of Saskatoon and its widely known summer resort, Waskesiu, is a mecca for summer tourists. Cars from all states of the union and from all provinces of Canada bring annually thousands of tourists to Saskatchewan's largest summer resort. Manitou Lake, Watrous, 83 miles by road from Saskatoon, is another noted Saskatchewan summer resort and famed for the medicinal value of its waters. Many other resorts in Saskatchewan also attract annually their quota of visitors

Saskatchewan is famed for its many beautiful and scenic lakes teeming with fish. In these lakes are found whitefish, trout, bass, pickerel and pike, while the rivers yield in addition the highly prized goldeye.

All roads to Saskatchewan's resorts pass through Saskatoon. Saskatoon itself provides many sporting facilities. The city possesses two of the only three watered golf courses in the province, the third being at Waskesiu. The city can boast of an unsurpassed outdoor swimming pool, a boating club, several bowling greens, an artificial ice skating rink, five curling rinks, a baseball stadium and an exhibition grounds and race track.

#### The Heart of Canada's Largest Wheat Growing Area

Saskatchewan enjoys the reputation of producing more wheat and other grains than any other province in Canada. In the total value of its agricultural products Saskatchewan stands generally next to the Province of Ontario, although on several occasions it has shown the way even to that province.

Saskatoon is in the very heart of the province's richest and most productive areas. As testimony of this is the fact that in Saskatoon are located three of the largest flour and cereal mills in the west. The Robin Hood, Quaker Oats and Wheat Pool plants, all located in Saskatoon, have a daily capacity among them of upwards of 8,000 barrels.

Agricultural societies, industrial exhibitions and livestock organizations have, over the years, helped tremendously to increase and improve the quantity and quality of the province's livestock. Because of its importance as a livestock centre, Saskatoon was chosen by the Intercontinental Packers, Limited, a European business concern forced out of Europe because of the war, as the location for its Canadian plant. This plant, established in 1941, is being steadily extended and at present is capable of processing daily some 1,800 hogs and several hundred head of cattle and other livestock.

Pratrie Farm Scene

Photo by Hillyard & Hume

Mixed farming has contributed greatly to the wealth of Saskatoon's trading mixed farming has contributed greatly to the wealth of Saskatoon's trading area. More milk is shipped into Saskatoon than, possibly, to any other point on the prairies. It has not been unusual for Saskatoon to supply other cities in Saskatchewan and even in Alberta, with milk. The city, being the centre of the largest milk shed on the prairies, would be expected to exceed all other centres in the manufacture of butter, cheese and milk powder. This it does. The Dairy Pool, with its headquarters in Saskatoon, manufactures the only processed cheese produced in the province. Its blue vein cheese, which is in great demand, is rated as amongst the best cheese of its type made anywhere. as amongst the best cheese of its type made anywhere.

The poultry industry in Saskatoon and district has shown great growth in the last few years. Seven hatcheries in Saskatoon supply over two and a quarter million chicks annually to those engaged in the poultry business. The city is one of the main centres in Canada for the manufacture of egg powder, a product which is already in great demand by the baking and candy trades. The Canada Egg Products Limited ships annually from its plant in Saskatoon some 5,000,000 lbs.

of egg powder.

Large tracts of land tributary to Saskatoon are irrigable. The water for irrigation is to be obtained through the construction of a dam on the South Saskatchewan River near Saskatoon. The cost of constructing the dam, which will produce power as well as provide water for irrigation, is now receiving the attention of government engineers. Research work already done by the Board of Trade shows that land near Saskatoon under irrigation produces profitable crops of potatoes, flax seed, soy beans, alfalfa, sugar beets and a variety of garden products.

STREE

#### Henderson's Saskatoon **Street and Avenue Directory** 1954

In the following list the named streets appear first in alphabetical order, followed by the lettered streets and then the numbered streets in numerical order the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house-owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. The profession or business of individuals or firms is given at their respective places of business; to find occupations of others refer to Alphabetical List of Names. of Names.

Where the odd and even numbers are separated on an Avenue or Street, the South Side (odd numbers) of Streets appear first and the East Side (odd numbers) will appear first on Avenues.

The symbol • following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol A also following names denotes houses having telephones.

(This section includes some listings reading "Occupied" or "Vacant". In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a post card was mailed and the telephone used when possible.)
